**Recoatable** Generally compatible with all NC, AC and UV lacquering processes but customer must verify own process compatibility.

**Finished** Foil surface was produced with a finished lacquer coat and cannot be lacquered again as this will peel.

**Hi-Gloss** Foil-surface was finished with Hi-Gloss lacquer coat and cannot be lacquered again as this will peel.

**Chemically-Embossed** Final lacquering layer was etched to create a texture (normally a wood-grain pattern).

**Non-standard colors can be produced in order-sizes that consume the full paper roll (Normally 3000m<sup>2</sup>)**
